Summary

Cybersecurity student with experience in ethical hacking, Capture the Flag (CTF) competitions, and bug bounty hunting. Currently building Java programming skills while focusing on secure coding principles and application security.

Experience

Ozone Cyber Security - Hybrid , Junior Security Analyst Intern

Jul 2026 - Present

- Research vulnerabilities and analyze security issues in web applications.
- Work with security testing tools and techniques to identify potential vulnerabilities.
- Assist in researching approaches for improving automated security testing.

Genz Educate Wing - Hybrid , Internship in Ethical Hacking

Jan 2025 - Mar 2025

- Studied common web application vulnerabilities and their potential security impact.
- Learned basic vulnerability identification and security testing techniques.

OctaNet Services Pvt Ltd.- Hybrid , Java Developer Intern

Aug 2024 - Sep 2024

- Worked on Java programming and application development tasks.
- Practiced object-oriented programming and basic software development concepts.

Prodigy Infotech - Hybrid, Cyber Security Intern

Jul 2024 - Aug 2024

- Learned how keyloggers capture and monitor keyboard input in controlled environments.
- Explored security risks associated with keylogging and methods for identifying such threats.

Education

B.E Computer Science (Cyber Security) - CGPA : 8.57

2023 - 2027

PSNA College of Engineering and Technology ,Dindigul.

HSC - 88.17 %

2009 - 2023

Mary Ann Matriculation Higher Secondary School, Madurai.

Technical Skills

- **Cybersecurity:** Networking, SOC Fundamentals, Web application Pentesting, Operating System.
- **Soft Skills:** Critical Thinking, Effective Communication, Teamwork, Leadership, Time Management.
- **Tools:** Burp Suite, Nmap, Nessus, Wireshark, Metasploit, OWASP ZAP, Wazuh, Splunk, Git, Github, Linux.
- **Programming:** Python, Java, C

Certifications

- Ethical Hacking and Penetration Testing | EHPT+, Udemy.
- Introduction to Cyber Security, Cisco.
- Cyber Security Essentials, Cisco.
- CEH , EC- Council (Ongoing).
- Forage CyberSecurity Analyst, TCS.

Achievements

- Hall of fame - Modyo Security VDP for responsible Vulnerability disclosure.
- Hall of fame - Strong DM VDP for responsible Vulnerability disclosure.
- 1st place - CTF, organized by Department of CSE(Cyber Security), PSNACET.
- 2nd place - Paper Presentation, National Level Symposium , PSNACET.
- 4th place - Root access CTF , IEST Shibpur.
- 8th place - Thiran CTF Quest, held at Sri Eshwar Engineering College, Coimbatore
- 9th place - CyberTea 3.0 CTF, IIIT sri city, Andhra Pradesh.
- 2nd place - SPARC Virtual CTF organized by IEEE Signal Processing Society (BMSIT&M).

Projects

PhishnetX - USB-Based Real-Time Phishing Detection System , Patent Application Number : 202641086389

- Developed an ML-based phishing detection system using Python, Flask, TF-IDF, and Logistic Regression.
- Built a Chrome extension with image/PDF attachment analysis using OCR and document processing.
- Integrated Arduino-based USB hardware for real-time red/green LED alerts and submitted the prototype for patent.

Honey Login

Developed a honeypot-based cybersecurity system to simulate vulnerable services and attract attackers. The project captures and analyzes malicious activities like login attempts.
